Language Tool

The Good	The Bad	The Bottomline
Useful. Easy to understand. You can either paste a paragraph into the website or you can add their extension to your browser. Also works in google docs, text editers etc.	Won't work on safari

Review

The user interface:

It's very easy in its use. You can easily in every paragraph select something and check if the grammar is right. Or you can paste it in their website which is also handy

Testing the tool (learning by doing — trial and error) What would/could a designer use this tool for?

To check your own writings on for instance your website.

Depending on what kind of free this tool is, how "free" is this tool really?

Is free as far as I know. I hadn't see any advertisements while using de website or the extension.
