## Sketchup

The Good	The Bad	The Bottomline
<p>On the website of Sketchup, there is a tutorial about the basics of the program. Sketchup is a easy way to draw in 3D. With different tools you can prooes 2D shapes / lines into 3D objects. You can use Sketchup in many different ways. For example designing a interior, exterior or furniture.</p>	<p>There are a lot of functions you can use. Because of that you have to test things first. You have to know what the tools/ functions can do. You can upload components. Because of this a lot of people has the same design.</p>	<p>You can translate your ideas to a visible presentation. You can see how Things in 2D, for example drawings really look like. It's easy and fast to make a visible presentation. You can look to it in different perspectives.</p>
